96 EAST TENTH STREET
NEW YORK, February 26th. 1919

Mr. Howard Woods,
c/o American Numismatic Society,
156th. Street West of Broadway,
New York, City.

Dear Mr. Woods;-

The writer begs to inform you that he has called at the American Numismatic Society, with intentions of paying you a visit, as also to inquire if at the prsent time there may be anything in the line of Cabinet Work, etc., which the aforementioned Society may be in need off. On the occassion of my visit, I happened to speak to Mr. Rush the caretaker of the Museum, who spoke as though the Society may be in need of some cases etc. in the near future. We therefore take this opportunity of inquiring, probably there may be something that you know off, and further desire to ask you to kindly bear us in mind and to notify us when in need of anything in the line of fine cabinet work etc. We also wish to call your attention to the fact, that the society had in mind, some of the swinging exhibition cases, similar to the ones that the B. Engesser Company had made and constructed some years ago, which they had intentions of having made, but it seems that the matter of having said cases made, had not been decided, oweing to the war. It probably within the near future will be decided by the Museum Authorities, to have said cases made, and we trust that we will be favored with an opportunity to estimate on this work.

You will probably recollect, that the writer was connected and interested in the B. Engesser Company, and further wish to state that also Mr. Engesser the President is connected with the above mentioned concern, who are transacting their business on the same basis and principal, as the old Company, it being our aim to satisfy our old and valued customers in every particular.

Trusting that you will remember us on your future requirements, and thanking you in advance for same, we beg to remain,

Yours very respectfully,
F. Sturzel Contracting Company. Inc.
Frederick Sturzel
President
